

# Virtual, Community Snapshot September 2025

Hearing Unheard Moments (HUM) –a program of The Students Commission of Canada

## Hearing Unheard Moments

Youth across the country have been engaged in virtual opportunities to share their voices on what matters to them. Here are some of the priority concerns we have heard from youth about the online space:

- Limited safe offline spaces – few places to feel supported and be themselves without judgment.
- Distrust of technology and AI – worries about privacy, control, and digital surveillance.
- Screen-related stress – comparison, distraction, and difficulty managing time offline.

## Collaborations

### Adult Capacity Building (ongoing)

Several capacity building events and training have been held with support from national HUM Network partners CIVIX and GoodBot, with more to come.

### #CanadaWeWant Youth Roster

The Youth Roster is developing an evolving community-engagement guide that gathers stories, lessons, and practical tips for supporting youth in their communities.

### Next Gen Men Discord Server Training

NGM is creating a video series on building and managing healthy Discord communities—from support spaces to respectful dialogue channels on polarizing topics.
